

EDUCATION FOR ALL!

Since its founding in 1950, The Arc has advocated for students with intellectual and developmental disabilities (I/DD) to receive the supports and services they need at school.

The Arc still drives legal, policy, and individual advocacy efforts to ensure students with I/DD graduate from high school, go to college, get jobs, and live independently as much as possible.

The Arc@School was created in 2016 to help families and professionals navigate the special education system.

It is not always easy for students and parents to advocate on their own for appropriate educational services, so many families seek help from a special education advocate.

The Arc protects and promotes the human rights of people with I/DD and actively supports their full inclusion and participation in the community throughout their lifetimes.

Do You Find the Special Education Process Confusing?

You're not alone – and The Arc@School can help. Become a better advocate for students with disabilities!

The Arc@School's Advocacy Curriculum

The Arc@School's Advocacy Curriculum is designed for individuals who are working with or advocating on behalf of children with disabilities in special education matters.

FAMILIES:

- Learn to advocate for the services and supports your child needs

EDUCATORS:

- Get the information you need to better serve your students with disabilities
- Build relationships with their families
- Understand what is required by law to support students with disabilities

ADVOCATES:

- Support students with disabilities and their families in navigating the special education system.

About the Curriculum
